IntaBiotech

Coconut Oil

Premium quality coconut oil — **from nature to your shelf.**

Discover our full range of coconut oil products, crafted for cosmetics, food, pharmaceutical, and industrial applications.

NATURAL · PURE · VERSATILE

Why Coconut Oil?

Skin Care

Moisturizes skin, prevents dryness and cracking. Antibacterial and anti-inflammatory properties protect skin from infection and treat acne.

Hair Care

Promotes shiny, healthy hair and reduces breakage. A natural conditioner trusted in beauty routines worldwide.

Packaging

Available in 180ml, 200ml, and 400ml (plastic or glass bottle). Bulk: flexibags or drums, 22 tons/20ft container, or per customer request.

Intabiotech 's Crude Coconut Oil

Crude Coconut Oil is an **unrefined oil** extracted from dried coconut meat by cold or hot pressing. It ranges from light yellow to dark brown, carries a natural coconut aroma, and contains impurities such as free fatty acids, waxes, and sediments.

Widely used in **cosmetics** — including soap, skin creams, shampoos, and hair care products — thanks to its moisturizing and antibacterial properties.

- Ideal for cosmetic manufacturers seeking a natural, minimally processed base oil.

RBD Coconut Oil by IntaBiotech

Refined, Bleached, and Deodorized (RBD) Coconut Oil is derived from dried coconut meat. Its clean appearance, neutral scent, and long shelf life make it essential in food, personal care, pharmaceutical, and industrial products.

Quality Specifications

- Moisture & Impurity: 0.1% max
- FFA (as Lauric): 0.05% max
- Peroxide Value: 2 meqO₂/kg max
- Saponification Value: 0.1 mgKOH/g max
- Iodine Value Type 1: 7-11
- Iodine Value Type 2: 17-20

Virgin Coconut Oil (VCO by IntaBiotech)

VCO by IntaBiotech has **lower moisture and impurity content** than crude oil, making it more stable and suitable for direct consumption. Rich in medium-chain fatty acids (MCFAs), especially **lauric acid**, with antibacterial, antifungal, and anti-inflammatory properties.

FFA

0.1% max

Peroxide

5 meqO₂/kg max

Moisture

0.1% max

Saponification

235–260 mgKOH/g

Extra Virgin Coconut Oil (EVCO by IntaBiotech)

EVCO by IntaBiotech is the **highest-quality coconut oil**, extracted from fresh coconut meat without chemical refining or high heat — through cold-pressing or natural fermentation. Clear to slightly milky white, with a fresh coconut aroma and superior nutrient retention.

Unrefined & Pure

No bleaching, deodorizing, or chemical treatment. Clear and colorless, free of cloudiness or sediments.

Rich in Lauric Acid

Strong antibacterial properties. FFA content typically below 0.2–0.5%, ensuring premium quality.

Fresh Aroma

Retains natural coconut fragrance — not rancid or sour — with more nutrients than any other coconut oil type.
