BOTANICAL EXCELLENCE

# PANAX GINSENG LEAF EXTRACT

Panax ginseng leaf extract provides a complementary source of ginsenosides with bioactive marker profiles comparable to root extracts, at a more competitive cost. Available in a wide range of standardizations to fit diverse nutraceutical and pharmaceutical formulations.

## • GINSENOIDES (UV)

• **5% ~ 80%**

- Spectrophotometric quantification. Wide range for cosmetic, functional and therapeutic applications.

## • GINSENOIDES (HPLC)

• **4% ~ 50%**

- High resolution chromatographic method. Ensures precise identification of individual saponins.
